Town Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hampton Falls, in the County of Rockingham, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall, in said Hampton Falls, on Tuesday, the eighth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

- 1a. To elect a moderator for two years.
- 1b. To elect three selectmen; one for three years, one for two years, and one for one year.
- 1c. To elect all the other necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To raise and appropriate the sum of \$400.00 to purchase a piano for the Town Hall.
4. To raise and appropriate the sum of \$350.00 to repair and shingle the horse sheds.
5. To raise and appropriate the sum of \$100.00 for the purpose of co-operating with the State and Federal Governments in the control of the White Pine Blister Rust in Hampton Falls.
6. To bring in your ballots upon each of the questions submitted by the Convention to Revise the Constitution relative to the amendments proposed by said Convention at a session held on January 28, 1921.

Given under our hands and seals, this nineteenth day of February, in the year of our Lord nineteen hundred and twenty-one.

WM. H. McDEVITT,
GEORGE F. MERRILL,
PERLEY E. LADD,

Selectmen of Hampton Falls.

A true copy of Warrant—Attest:

WM. H. McDEVITT,
GEORGE F. MERRILL,
PERLEY E. LADD,

Selectmen of Hampton Falls.

Report of Superintendent of Schools

To the Hampton Falls School Board:

I have the honor to submit my second annual report as superintendent of schools.

WORK OF THE YEAR.

After a careful analysis of the scores made in the different grades in the *standard* tests that I gave last spring and comparing the results with *standard* scores for all the different grades, I find our grades fall below the *standard* scores in some subjects, more particularly in Reading and Composition. In general they are about equal or are better than the *standard* scores in other subjects, more frequently in Writing, Spelling and the four fundamentals of Arithmetic. I further observe that the failure to attain to the *standard* scores occurs more frequently in the lower grades, than in the upper grades. From this I conclude that our teachers, in trying to prepare the upper grades to enter the Junior High or High schools, neglect to give the required amount of drill to the lower grades that is essential, or else they prefer to work with the older pupils. The failure in the Reading was for the most part in the factor or speed or rate of reading, which in general was only about one-half as fast as it should have been according to the *standard* scores. In comprehension they were nearly normal or up to grade. Evidently our teachers this year must give much more attention to the drill in this particular, and more drill in all subjects to the lower grades.

One thing which I cannot account for is the fact that

only one pupil in the first three grades failed of promotion, whereas the greatest amount of retardation occurred in grades 4, 5, 6, 7 and 8, (See table of Promotion and Retardation). This is not a common or expected condition. Under normal conditions the greatest amount of retardation takes place in the first two or three grades, due to several reasons, as immaturity, or poor attendance, because of bad storms or illness. The second most frequent point of retardation usually is in grades 6 and 7 due to the fact that some few pupils invariably reach about the limit of their ability in these grades. A study of the table on attendance possibly sheds some light on this unexpected condition, as the per cent of attendance was low in all three schools, particularly in the South and North schools. The average for all schools was only 83.32 whereas it ought to be about 95 per cent. I am inclined to believe that this low record in attendance is chiefly responsible for the non promotion in the grades where there should have been less retardation, though it may be that the teachers did not give the attention essential to a few individual pupils, in order to bring them up to grade. Our teachers this year must see that this is done, as retardation means more expensive education for the school district, to say nothing of the handicap to pupils severally and individually. However, teachers cannot keep all pupils up to grade unless all pupils are in regular attendance. Some parents in Hampton Falls should see to it that their children are much more regular in attendance as this is their responsibility, fully as much as the teachers. Irregular attendance on the part of some pupils does not only injure the work of those pupils who miss the work but it retards the work of the whole class very greatly, as the work has to be gone all over again when these pupils return to school.

ATTENDANCE.

The attendance last year was not quite as good as it was the previous year, due doubtless to the exceedingly severe winter and so many bad storms. The per cent of attendance last year for all schools was only 83.32 whereas the previous year it was 87.65 per cent. The number of cases of tardiness last year was 113 or 3 less than the previous year. The cases of tardiness should surely be reduced by at least one-half this number. I again wish to urge all parents to co-operate to the fullest extent possible to make a good record with respect to both attendance and tardiness, as both are vitally important factors in improving the morale of any school, which makes for successful school work.

TEACHERS.

We lost through resignation last spring all three of our teachers; Miss Florence A. Burke of the East school, Mrs. Mary O. E. Fogg of the South school and Miss Florence E. Powers, of the North school, all of whom did good work for us. However, we were very fortunate in the selection of teachers to fill the places of the above. Mrs. Eva D. Simons was elected to teach the East school, Miss Grace C. Fogg the South school and Miss Dorothy I. Kelsey the North school. All our teachers are thoroughly efficient in their respective positions. Their scholarship is excellent and their understanding and practice of the most recent investigations of correct pedagogical practice is very good, when we consider their professional training and experience. They have taken kindly any criticisms or suggestions I have offered and there is a fine spirit of co-operation among them. All they need is strong backing by all school officials and by all our people in general.

SCHOOL BUILDINGS.

In my report of last year I pointed out many of the defects in our present school plant, and our present

organization, and so I will only refer you to that section for further consideration. Personally, I do not feel that we can make much more effective our teaching, until we can reorganize our school system with less grades per teacher, but this would mean consolidating all our schools in one central building.

The Board has now improved the South and North schools very much by retinting the walls and with the aid of the Neighborhood Club at the North school put in one extra window in this school. This has improved the light very much in that school at the left of the pupils, from which the major amount of light should come. If we are to continue to use our present buildings, we should next take steps to improve the light in the South school at the left or rear of the pupils, as it is very poor at present. Also, we might well consider the putting in of about two more windows at the left of the pupils in the East school and the retinting of its interior. Then our present buildings would be in fairly good condition for school purposes with the exception of the toilets. In each school we should substitute modern, sanitary, chemical toilets for our present unsanitary vaults. Especially, should we do this at the East school where we have so many pupils in one school. It would not be of very great additional expense to the school district to install one such chemical closet each year. I recommend that the Board take the proper measure to bring this matter before the voters of the district at the annual meeting to see what action they will take on the same.

MEDICAL INSPECTION.

I am very sorry that I have not as yet been able to get the report of the physical examination for last year, from your School Physician, Dr. Wm. B. Kenniston, so as to append it as a part of this report. I understand from him that the examination was very incomplete and unsatisfactory, due to the fact that so many children were

out sick with the measles, I believe, at the time of the examination. He has not as yet been able to examine the children this year and the Board may be compelled to appoint another School Physician.

I have collected school statistics for 1919-20 as a part of this report, which no doubt will prove interesting to all citizens, as well as to the School Board.'

In closing, I wish to thank the Board for your advice and loyal support, and also the teachers, parents and pupils for their co-operation in the interests of the schools,

Respectfully submitted,

G. H. WALKER.

February 3, 1921.

Town Warrant

(L.S.) THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Hampton Falls in the County of Rockingham, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at the Town Hall, in said Hampton Falls, on Tuesday, the fourteenth day of March next, at ten of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To choose a director to serve on the board of the Exeter, Hampton and Amesbury Street R. R. for the ensuing year; pursuant to the vote as passed October 6, 1919.

4. To see if the Town will vote to increase the amount to \$500.00 to be paid to the E., H. and A. St. R. R. for the term of five years, provided there is a deficit in the operation of the road; and to raise and appropriate the money necessary therefor.

5. To consider rebuilding the Exeter road bridge and raise and appropriate the money necessary for the same.

6. To see if the Town will co-operate with the State to eradicate the White Pine Blister Rust in the Town, and raise and appropriate the money for same.

7. To raise and appropriate the money to paint and repair the Library.

8. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this thirteenth day of February, in the year of our Lord nineteen hundred and twenty two.

WILLIAM H. McDEVITT,
GEORGE F. MERRILL,
PERLEY E. LADD,

Selectmen of Hampton Falls.

A true copy of the Warrant—Attest:

WILLIAM H. McDEVITT,

School Report

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Hampton Falls School Board:

I am pleased to submit my third annual report as Superintendent of Schools. I also transmit to you the report of the School Physician, and the tabulation of the customary School Statistics.

WORK OF THE YEAR

A careful diagnosis of the scores made in the Standard Tests, which were given in the fundamental subjects last spring, shows considerable improvement in the rate of Reading; the low scores were made in grade 1 at the North School, in grades 1, 3, and 4 at the East School and in grades 5 and 6 at the South School. In comprehension, all grades, except the 5th at the South School, were about normal or even better. High scores resulted in Spelling in every grade in all three schools and good or better than normal scores were made in Composition, in which subject the previous year practically all grades were below Standard. All grades were fully up to grade in the four fundamentals of Arithmetic, except the 3rd and 4th at the North School. Judging from the results of these Standard Tests, I believe, good progress was made in all schools, in practically all the fundamental subjects last year, with the above exceptions.

One very decided improvement in our work last year over the work of the previous year, is evident from a comparison of the tables of Promotion and Retardation for the last two years. There were not nearly as many retarded last year as in the previous year, and the greater number that were retarded were in the primary grades, where normally the greater amount of retardation should occur. Our teachers last year evidently gave more attention to slow or backward pupils than in the former year as I suggested they must do in my last report.

TEACHERS

We lost last spring, with the exception of Mrs. Eva

D. Simons, all our teachers who had done excellent work for us. Such an overturn in a corps of teachers is commonly very harmful, if not almost disastrous. However, in spite of the great scarcity of teachers, we were fortunate in the selection of teachers to fill the places made vacant. All are doing excellent work considering their professional training and experience. None of them are perfect—few of us are—but with strong backing that we feel justified in expecting from school officials and parents, and from the community in general, we hope to produce satisfactory results.

ATTENDANCE

The per cent of attendance, 89 last year, was the best it has been since four years ago when it was 89.7. The number of cases of tardiness last year was 125 or 12 more than for the previous year. The improvement in attendance was very creditable though there ought not to be more than one third as many tardinesses.

Good regular attendance and punctuality on the part of all pupils is a fairly good barometer of the kind of work any school is doing. When pupils are in their places promptly, one may be reasonably sure their attitude toward the school is business-like and the work of the school will be promptly and probably more efficiently done. The co-operation of parents will do much to make this condition possible.

SCHOOL BUILDINGS

In my report of last year and the previous year, I pointed out some of the defects in our present school plant and organization of the school work, and so will only refer you to those sections for further consideration. Personally, I do not believe the parents in Hampton Falls will be fully satisfied with the progress of your children in school, until you are able to consolidate all your schools in one central school, where you will be able to organize the work so that there shall not be more than three grades to each teacher.

Since it will be necessary to remodel considerably our present buildings, if we continue to use them, to meet with the permanent approval of the State Board of Education, possibly the best and wisest solution of the whole problem would be the erection of, at least, a three room building, where we could consolidate all our

schools. The expense of remodeling our present buildings and the keeping of them in good repair would in the course of not many years go a long way toward a new, properly arranged building of brick or stone, which would require few repairs for a great many years to come. Besides, probably our present buildings could be disposed of for much more than they originally cost. An adequate and efficient school system is one of, if not the best, investments that a town can possess and increases the value of all property and also the population. Good schools usually increase the population of a town to such an extent that they do not increase the tax rate. In the end they are paid for by the relative increase in property held. I recommend that the board take proper measures to bring this matter before the voters of the district at the annual meeting, to see what action they will take toward the erection of a new building, which will satisfy the most modern requirements of such a structure.

HEALTH SUPERVISION

A study of the report of the school physician shows good results obtained, I believe. Total number of defects found last year was only 79 whereas the previous year 88 were discovered. Number of cases treated last year, or 26, which was almost one third the number of cases found the previous year, was more than four times as many as were treated after the former examination. The most frequent defect found again proves to be defective teeth, showing the need for a dental clinic for Hampton Falls children. The results of the Health Supervision, I believe, show the need of a school nurse for the very important "follow up work," in getting more pupils treated, thereby making them better mentally as well as more physically fit for their school and life work. Possibly Hampton Falls might be able to make some arrangement for the part time services of the school and community nurse of either Hampton or Exeter, with the schools boards of these towns.

SCHOOL COSTS

One thing, which I believe will be interesting to you is the comparison of costs of schools in the different districts of this Union for last year. I have com-

puted the same on the basis of cost per pupil of average membership.

Cost Per Pupil of Average Membership

Newington	\$60.98
Newcastle	60.80
Rye	55.09
North Hampton	113.80
Hampton	43.23
Hampton Falls	63.39
Seabrook	48.25

These figures were obtained by omitting extraordinary payments, such as for repairs, remodeling, etc., and counting only the necessary running expenses of the schools. They illustrate to a certain extent the business efficiency of the management of all our schools, by the different school boards, at a time when all school costs have been mounting rapidly. You will note the cost per pupil of average membership is a little more for Hampton Falls than it is for a majority of the towns of the Union. This lesser cost in some of the districts does not necessarily mean better management, however, since we must take into consideration the efficiency of the service rendered as well as the figures. The principal reason for this greater cost is the fact that we have less pupils per teacher than in the other districts, with one exception. The Board is to be congratulated since you have been able to keep at a comparatively low level the expenses of the schools, at a time when all school costs, such as teachers' salaries, textbooks, supplies etc., have just about doubled in price.

In closing, I wish to express my appreciation of your counsel and cordial support, and of the co-operation of the parents and teachers in making the school work a success.

Respectfully submitted,

C. H. WALKER.
